PROFESSIONAL SUMMARY

Results-driven React Native and Full Stack Developer with **2 years** of hands-on experience in designing, developing, and maintaining scalable web and mobile applications. Proficient in **React, React Native, Expo, Next JS, Laravel framework, Python, RESTful API integration, and AI/ML integration** (OpenAI API, NLP-based features, intelligent automation). Strong expertise in JavaScript, MySQL, and performance optimization, with a proven ability to deliver high-quality, user-focused solutions in fast-paced development environments. Actively seeking challenging opportunities (remote or onsite) to leverage technical expertise and contribute to innovative, growth-oriented projects.

TECHNICAL SKILLS

Backend Development: Laravel, SQL, GraphQL, PHP, RESTful APIs, API Integration, Django

Frontend Development: JavaScript (ES6+), React.js, Python, FastAPI, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design, Cross-Browser Compatibility, UI/UX Optimization

AI/ML & Data: OpenAI API Integration, NLP Fundamentals, Basic ML Algorithms (Linear Regression, Classification), Prompt Engineering, AI-Powered Feature Development

Tools & Technologies: Git, GitHub, GitLab, Version Control, Agile/Scrum, Postman

Additional Skills: Performance Optimization, Problem Solving, Code Review, Testing & Debugging

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

November 2023 – Present

WebsCare

- Designed, developed, and maintained scalable full-stack web and mobile applications using **React, React Native, Expo, Laravel**, and modern JavaScript frameworks
- Built secure, scalable, and well-documented **RESTful APIs** to enable seamless frontend-backend communication
- Developed cross-platform mobile applications using **React Native** and **Expo**, ensuring smooth performance and consistent UI across Android and iOS
- Integrated third-party APIs and services, including **AI/ML-powered features** (e.g., OpenAI API) to enhance application functionality and improve user engagement
- Collaborated with cross-functional teams to gather requirements, design technical solutions, and deliver projects within tight deadlines
- Optimized application performance through code refactoring, database query optimization, and industry best practices, reducing load times
- Utilized **Git** for version control to manage feature branches, pull requests, and production releases efficiently
- Implemented responsive, accessible web interfaces and mobile-friendly designs, ensuring compatibility across Chrome, Firefox, Safari, and Edge
- Diagnosed and resolved complex production issues, improving application reliability, stability, and user experience

Freelance Web Developer

2021 – 2023

Self-Employed

- Designed and developed custom web solutions for local and international clients, delivering production-ready applications
- Built a complete **POS and Sales Management System** for **LahoreShoes**, including inventory management, billing, and sales reporting modules
- Developed a service-based business website and admin panel for **Sania Salon**, enabling appointment scheduling, content management, and admin control
- Implemented secure authentication, role-based access control, and database-driven workflows
- Worked directly with clients to gather requirements, provide technical guidance, and deliver solutions aligned with business goals
- Handled deployment, maintenance, and post-launch support, ensuring long-term system stability and performance

PROJECTS

Web & Mobile Applications Development: Developed multiple production-level web and mobile applications featuring custom modules, dashboards, and API integrations. Key projects include **UrduFonts.com** (multilingual Urdu fonts platform), **DubaiCruise.com** (tour and cruise booking system), and **WatchNews Pro** (live news and streaming platform with mobile support using **React Native** and **Expo**). Built dynamic user interfaces, automated workflows, user management systems, and real-time content updates. Implemented optimized database queries, role-based access control (ACL), caching strategies, and performance enhancements across applications.

AI-Powered Application Features: Integrated **OpenAI API** and **NLP-based** capabilities into web applications to deliver intelligent features such as automated content generation, smart query handling, and context-aware response systems. Applied basic **machine learning concepts** (classification, regression) in Python-based academic and personal projects to explore data-driven decision making.

AI Study Helper: Built an **AI-based study assistant** using Python that helps students understand concepts, generate answers, and assist with academic queries. Integrated **NLP techniques** and external APIs (**OpenAI API**) to provide accurate, context-aware responses, simulating an intelligent tutoring system.

API Testing Tool (FastAPI): Developed a **Postman-like API request and testing tool** using **Python** and **FastAPI**, enabling users to send HTTP requests, view responses, and test REST endpoints. Implemented support for multiple request methods, headers, and request bodies to streamline API development and debugging workflows.

Custom Store & E-Commerce Development: Designed and developed high-performing e-commerce stores using **Shopify** with custom themes, reusable sections, dynamic metafields, product badges, and automated layouts. Enhanced user experience, optimized page speed, and delivered scalable front-end solutions for online businesses, including **DropoutsOfficial.com** and brand-focused Shopify stores.

Corporate & Business Platforms: Built modern corporate and financial websites such as **hqafund.org** using **React (Vite)** and API-driven architectures. Implemented secure forms, admin dashboards, server-side validation, and SEO optimizations to improve visibility, security, and performance.

Management Dashboards & Admin Portals: Developed internal business management dashboards for inventory tracking, sales reporting, and user management using **Laravel**, **JavaScript**, and **MySQL**. Automated workflows reduced manual processing time by up to **60%**. Delivered secure admin–client portals with REST API integrations, optimized databases, and role-based authentication.

Team Collaboration & Delivery: Worked within Agile development environments, actively participating in sprint planning, code reviews, and Git-based version control to ensure high-quality deliverables, timely releases, and effective cross-team collaboration.

EDUCATION

University of Sargodha <i>Bachelor of Science in Information Technology</i>	2020 – 2024
Superior College <i>FSc Pre-Engineering</i>	2018 – 2020

ADDITIONAL INFORMATION

Languages: English (Fluent), Urdu (Native)
Availability: Open to remote and onsite opportunities
Work Authorization: Authorized to work in Pakistan
